SUMMARY

Computer Science student with a focus on Cyber Security, skilled in cyber security, data analysis, and full-stack development. Proficient in using Elastic Search and Zeek for detailed threat analysis and detection. Experienced in deploying AI-driven web security systems. Strong problem-solving abilities, with in-depth knowledge of Java and SQL, applied to develop secure and optimized software solutions. Enthusiastic about leveraging technical expertise to address cybersecurity challenges.

EXPERIENCE

AI Web Security Extern

Smart Internz in collaboration with Google, Bangalore

May 2023 – Aug 2023

1. Implemented AI-based systems to monitor and evaluate website security, identifying vulnerabilities and mitigating risks.
2. Developed threat detection solutions for web applications using Elastic Search and Kibana for data visualization and analysis.
3. Conducted risk assessments to enhance the cybersecurity posture of client websites.

Full Stack Developer

Self-directed Project: Restaurant Management System(Frontend)

1. Designed a full-stack web application to manage restaurant operations, including seat reservations and menu displays.
2. Streamlined and implemented by adding features for real-time order tracking and table management.

EDUCATION:

Bachelor of Technology in Computer Science and Engineering

Sep 2021- June 2025

Vellore Institute of Technology- AP

Specialization in Cyber Security | CGPA- 8.52

XII (MPC) | Narayana Junior College, Hyderabad

94.0% | 2019- 2021

X (SSC) | Montessori High School, Kurnool

96% | 2019

SKILLS

Programming & Scripting:

- **Languages:** Java, SQL, HTML, CSS
- **Cybersecurity:** Vulnerability Analysis, Basic Cyber Attacks, Linux Commands
- **Tools:** Elastic Search, Zeek Logs
- Data Structures and Algorithms (DSA) in Java

PROJECTS

Elastic Search with Zeek Logs

- Engineered an end-to-end traffic analysis system with Elastic Search and Zeek Logs; detected potential security breaches in real-time, reducing incident response time by approximately six hours on average.

Vegetable Website (Frontend):

1. **Developed and deployed a fully responsive e-commerce platform for vegetables**, utilizing **HTML5, CSS3, and JavaScript**, ensuring cross-browser compatibility and optimal performance on mobile and desktop devices.
2. **Engineered an advanced search functionality that allowed users to filter products in real-time, resulting in a 40% reduction in page load times and enhancing overall user satisfaction on the e-commerce platform.**

CERTIFICATIONS

- **AI in Web Security – Smart Internz (with Google)**
- **Introduction to Cyber Security – Acmegrade**

ACHIEVEMENTS & AWARDS

- First Prize in **Telugu Literature** – 10th Standard
- Certified **Cyber Security Ambassador**, recognized for promoting cybersecurity awareness on campus.
- Earned recognition for pivotal contributions to AI-driven security initiatives, leading a team effort that identified and addressed the three most significant vulnerabilities within network systems over six months of rigorous testing.

ADDITIONAL INFORMATION

Languages: English (Fluent), Telugu (Native), Hindi (Basic)

Hobbies: Dancing, Music, Watching Movies
